## Reference letter

To whom it may concern,

STRABAG Sp. z o. o confirms that the company PMP Sp. z o. o. based in Oborniki Śląskie, ul. Siemianicka 54, 55-120 Oborniki Śląskie in the period from October 2014 to November 2014 has carried out work on Tauron's power station "Łaziska" block no. 10.

PMP Sp. z o. o. has had the following scope of work:

- the execution of a set of wireframes (ash screens);
- removal of guidance sheets;
- assembly of 14 wire meshes at the steering exhaust;
- modification to bypass channel seals (removal of old and installation of the new seals);
- installation of ash screens.

During the course of the work the company PMP Sp. z o. o. has demonstrated a lot of experience and organizational skills. Cooperation with the company and its management was successful and without interference. Experienced cadre and workers guarantee a high level of performance of the services. Assigned works have been done fully professionally and within the scheduled time.

With reference to the above with the full responsibility we recommend PMP Sp. z o.o. to any respective investors.

Yours sincerely,
